### 2. What is the Global Maritime Forum's Annual Summit?

The **Global Maritime Forum** is an international not-for-profit organization committed to shaping the future of global seaborne trade to increase sustainable long-term economic development and human wellbeing. It is founded on the idea that bringing together leaders from across the global maritime industry – those who have the drive and influence to make change happen – will lead to a brighter future not only for the industry, but for society as well.

The highlight of our work is the by invitation only **Annual Summit**, which convenes key leaders from across the global maritime industry with policymakers, experts and other influential decision-makers and opinion leaders to shape the future of the industry. Together, they discuss how the industry can work together to explore challenges and opportunities facing the industry and search for actionable ideas on how to address them.
